SUBJECT: SOI - Soil Correlation, Amendment to Classification and
Correlation of Marion County, Indiana

FILE CODE: 430-15-5

TO: Carl L. Glocker
Team Leader
SSD, NSSC, Mail Stop 33
NRCS, Lincoln, NE

Enclosed are four copies of the First Amendment to the *Classification and Correlation of the Soils of Marion County, Indiana*.

This amendment is to certify the SSURGO data sets for the Marion County Soil Survey. Map units are added for miscellaneous mapping units named as spot symbols on the Marion County Map Sheets. Also the special feature "Stones 10" or larger" is deleted from the Conventional and Special Symbols Legend. A check of all the maps revealed that this feature was not placed on the maps. The MUIR data set is revised to include the new approved map unit symbols and names, including water.

Please add the amended pages to your copy of the Correlation Memorandum, approved March 25, 1975.

ROBERT L. EDDLEMAN *[Signature]*
